The District Engineer
Department of Public Works and Highway
Zamboanga del Sur 2nd District Engineering Office
Pagadian City, Zamboanga del Sur

Dear Sir/Madam:

I am writing to apply for the position of Data Encoder in your esteemed office. I am a 4th year BS Information Technology student at J.H. Cerilles State College, and I believe my technical background and skills make me a strong candidate for this role.

I have two years of experience working with the Philippines National Police (PNP), where I was able to develop and strengthen my skills in data encoding, record-keeping, and office documentation. This experience has equipped me with the accuracy, attention to detail, and work discipline required to handle encoding tasks efficiently and reliably.

I am fully committed to undergoing any necessary training required for this position and am dedicated to performing my duties diligently and responsibly once hired. I am confident in my ability to adapt quickly, follow instructions carefully, and contribute positively to the productivity of your office.

Attached to this letter are my resume, transcript of records, and certificate of employment for your reference and evaluation. I am also willing to be interviewed at your most convenient time. Thank you very much for considering my application.

Respectfully yours,

Jotham L Pahamutang
